

NAGALRO TRAINING PROGRAMME

‘The Impact of Neglect on Outcomes for Young People’

Monday, 11 March 2019

Woburn House, London, WC1H 9HQ

This conference looks at the impact of children and young people of failures to protect them from many years of persistent neglect. These are the children who, for whatever reason, were not removed from home and continued to struggle to care for themselves and sometimes other siblings to survive in a situation where the adults could not, or would not, keep them safe and secure. Courts have to be mindful of the child/young person's human right to family life. How can this be balanced against the known impacts on children living in neglectful families?

Neglect, whether it is caused by parental poverty, substance abuse, or mental illness, is one of the most significant causes of children becoming looked after. Nationally a huge cohort of young people are subject to child protections plans under the category of neglect. This conference looks at the fate of those for whom there was no ‘seat in the lifeboat’ and who have struggled to care for themselves in a world which seemed, at best, indifferent; at worst exploitative.

Conference Chair: Martha Cover Barrister and Joint Head of Coram Chambers

Do join us for this critical debate. Highly experienced presenters will challenge our thinking from differing perspectives and include:

- | | |
|---------------------------|--|
| Jenny Molloy | The Hackney Child – the experience of the neglected child and the long term consequences for that child. |
| Dr Claudia Bernard | Neglect of children in affluent families; research and disclosure from young people. |
| Alex Hassett | Neglect, its impact on the Adolescent Brain and when do we need to worry about their behaviour. |
| Dr Elly Hanson | Links between neglected young people and long term neglect and child sexual exploitation. |
| Dustin Hutchinson | Children missing in education – What does the research tell us and the consequences for young people. |

£95.00 - £145.00

6 CPD credits.

pto

IMPROVING PRACTICE IN ANALYTIC REPORT WRITING

Assessment in social work reports is more than telling the story. Analysing what information means, evidencing and drawing hypotheses is the key to the quality of good practice in social work assessments. This workshop will look at what makes analysis a different process from information gathering and focus on the skills involved. The approach will be experiential and give participants the opportunity to use video as source material in composing an analysis of what they observe.

London: Tuesday, 19 November 2019

£95.00 - £145.00

6 CPD credits.

LIFE STORY WORK

Where Do I Belong? Where Did They Go? Could I Have Done Something Different? Was It My Fault? What's Going to Happen Next?

An experiential day, which will explore the theory, skills and emotions involved in life story work. Participants should go away with new ideas, new resources and also an appreciation of how hard it is for a child to do this work.

London: Thursday 28 February 2019

£95.00 - £145.00

6 CPD credits

Independent Social Workers - Children and Family specialists

Nagalro is the professional association for specialist children and family social workers and family court advisors. NAGALRO TRAINING PROGRAMME

‘The Impact of Neglect on Outcomes for Young People’

Monday, 11 March 2019

Woburn House, London, WC1H 9HQ

This conference looks at the impact of children and young people of failures to protect them from many years of persistent neglect. These are the children who, for whatever reason, were not removed from home and continued to struggle to care for themselves and sometimes other siblings to survive in a situation where the adults could not, or would not, keep them safe and secure. Courts have to be mindful of the child/young person's human right to family life. How can this be balanced against the known impacts on children living in neglectful families?

Neglect, whether it is caused by parental poverty, substance abuse, or mental illness, is one of the most significant causes of children becoming looked after. Nationally a huge cohort of young people are subject to child protections plans under the category of neglect. This conference looks at the fate of those for whom there was no ‘seat in the lifeboat’ and who have struggled to care for themselves in a world which seemed, at best, indifferent; at worst exploitative.

Conference Chair: Martha Cover Barrister and Joint Head of Coram Chambers

Do join us for this critical debate. Highly experienced presenters will challenge our thinking from differing perspectives and include:

- | | |
|---------------------------|--|
| Jenny Molloy | The Hackney Child – the experience of the neglected child and the long term consequences for that child. |
| Dr Claudia Bernard | Neglect of children in affluent families; research and disclosure from young people. |
| Alex Hassett | Neglect, its impact on the Adolescent Brain and when do we need to worry about their behaviour. |
| Dr Elly Hanson | Links between neglected young people and long term neglect and child sexual exploitation. |
| Dustin Hutchinson | Children missing in education – What does the research tell us and the consequences for young people. |

£95.00 - £145.00

6 CPD credits.

pto

IMPROVING PRACTICE IN ANALYTIC REPORT WRITING

Assessment in social work reports is more than telling the story. Analysing what information means, evidencing and drawing hypotheses is the key to the quality of good practice in social work assessments. This workshop will look at what makes analysis a different process from information gathering and focus on the skills involved. The approach will be experiential and give participants the opportunity to use video as source material in composing an analysis of what they observe.

London: Tuesday, 19 November 2019

£95.00 - £145.00

6 CPD credits.

LIFE STORY WORK

Where Do I Belong? Where Did They Go? Could I Have Done Something Different? Was It My Fault? What's Going to Happen Next?

An experiential day, which will explore the theory, skills and emotions involved in life story work. Participants should go away with new ideas, new resources and also an appreciation of how hard it is for a child to do this work.

London: Thursday 28 February 2019

£95.00 - £145.00

6 CPD credits

IMPROVING PRACTICE IN ANALYTIC REPORT WRITING

Assessment in social work reports is more than telling the story. Analysing what information means, evidencing and drawing hypotheses is the key to the quality of good practice in social work assessments. This workshop will look at what makes analysis a different process from information gathering and focus on the skills involved. The approach will be experiential and give participants the opportunity to use video as source material in composing an analysis of what they observe.

London: Tuesday, 19 November 2019

£95.00 - £145.00

6 CPD credits.

LIFE STORY WORK

Where Do I Belong? Where Did They Go? Could I Have Done Something Different? Was It My Fault? What's Going to Happen Next?

An experiential day, which will explore the theory, skills and emotions involved in life story work. Participants should go away with new ideas, new resources and also an appreciation of how hard it is for a child to do this work.

London: Thursday 28 February 2019

£95.00 - £145.00

6 CPD credits

Independent Social Workers - Children and Family specialists

Nagalro is the professional association for specialist children and family social workers and family court advisors. We promote high standards of practice and members offer: Specialist assessments including Risk Assessments for local authorities and other agencies; Independent Assessments for the Courts / Expert witness skills; Skills and Knowledge in Languages, Culture and Disability

- Specialist assessments including Risk Assessments for local authorities and other agencies
- Independent Assessments for the Courts / Expert witness skills
- Skills and Knowledge in Languages, Culture and Disability

Are you looking for an independent social worker? then log on to www.nagalro.com

NAGALRO TRAINING PROGRAMME

‘The Impact of Neglect on Outcomes for Young People’

Monday, 11 March 2019

Woburn House, London, WC1H 9HQ

This conference looks at the impact of children and young people of failures to protect them from many years of persistent neglect. These are the children who, for whatever reason, were not removed from home and continued to struggle to care for themselves and sometimes other siblings to survive in a situation where the adults could not, or would not, keep them safe and secure. Courts have to be mindful of the child/young person's human right to family life. How can this be balanced against the known impacts on children living in neglectful families?

Neglect, whether it is caused by parental poverty, substance abuse, or mental illness, is one of the most significant causes of children becoming looked after. Nationally a huge cohort of young people are subject to child protections plans under the category of neglect. This conference looks at the fate of those for whom there was no ‘seat in the lifeboat’ and who have struggled to care for themselves in a world which seemed, at best, indifferent; at worst exploitative.

Conference Chair: Martha Cover Barrister and Joint Head of Coram Chambers

Do join us for this critical debate. Highly experienced presenters will challenge our thinking from differing perspectives and include:

- | | |
|---------------------------|--|
| Jenny Molloy | The Hackney Child – the experience of the neglected child and the long term consequences for that child. |
| Dr Claudia Bernard | Neglect of children in affluent families; research and disclosure from young people. |
| Alex Hassett | Neglect, its impact on the Adolescent Brain and when do we need to worry about their behaviour. |
| Dr Elly Hanson | Links between neglected young people and long term neglect and child sexual exploitation. |
| Dustin Hutchinson | Children missing in education – What does the research tell us and the consequences for young people. |

Monday, 11 March 2019

Woburn House, London, WC1H 9HQ

This conference looks at the impact of children and young people of failures to protect them from many years of persistent neglect. These are the children who, for whatever reason, were not removed from home and continued to struggle to care for themselves and sometimes other siblings to survive in a situation where the adults could not, or would not, keep them safe and secure. Courts have to be mindful of the child/young person's human right to family life. How can this be balanced against the known impacts on children living in neglectful families?

Neglect, whether it is caused by parental poverty, substance abuse, or mental illness, is one of the most significant causes of children becoming looked after. Nationally a huge cohort of young people are subject to child protections plans under the category of neglect. This conference looks at the fate of those for whom there was no ‘seat in the lifeboat’ and who have struggled to care for themselves in a world which seemed, at best, indifferent; at worst exploitative.

Conference Chair: Martha Cover Barrister and Joint Head of Coram Chambers

Do join us for this critical debate. Highly experienced presenters will challenge our thinking from differing perspectives and include:

- | | |
|---------------------------|--|
| Jenny Molloy | The Hackney Child – the experience of the neglected child and the long term consequences for that child. |
| Dr Claudia Bernard | Neglect of children in affluent families; research and disclosure from young people. |
| Alex Hassett | Neglect, its impact on the Adolescent Brain and when do we need to worry about their behaviour. |
| Dr Elly Hanson | Links between neglected young people and long term neglect and child sexual exploitation. |
| Dustin Hutchinson | Children missing in education – What does the research tell us and the consequences for young people. |

£95.00 - £145.00

6 CPD credits.

IMPROVING PRACTICE IN ANALYTIC REPORT WRITING

Assessment in social work reports is more than telling the story. Analysing what information means, evidencing and drawing hypotheses is the key to the quality of good practice in social work assessments. This workshop will look at what makes analysis a different process from information gathering and focus on the skills involved. The approach will be experiential and give participants the opportunity to use video as source material in composing an analysis of what they observe.

London: Tuesday, 19 November 2019

£95.00 - £145.00

6 CPD credits.

LIFE STORY WORK

Where Do I Belong? Where Did They Go? Could I Have Done Something Different? Was It My Fault? What's Going to Happen Next?

An experiential day, which will explore the theory, skills and emotions involved in life story work. Participants should go away with new ideas, new resources and also an appreciation of how hard it is for a child to do this work.

London: Thursday 28 February 2019

£95.00 - £145.00

6 CPD credits

Independent Social Workers - Children and Family specialists

Nagalro is the professional association for specialist children and family social workers and family court advisors.
